## OPPOSITION STATE CONVENTION.

## UNION OF ALL THE ELEMENTS Charles S. Olden Unanimonsly Nominated.

TRENTON, Sept. 7, 1859. The Opporation have accomplished a good day's work. Despite the efforts of some professed opponents of the Administration to sow the seeds of dissord among the various elements of the Opposition, they have come together, and will present a united front at the coming Gubernatorial contest in No-

The Delegates to the two Conventions began to errive yesterday in considerable numbers and last nat from nearly every township in the State leading conservative citizens, many not Delegates to the Conventions, were present to aid their labors with their advice; and it was apparent from the spirit exbiblied last night, that there must be a cordial union between men of all parties who were honestly opposed to Federal corruption. Nearly all with whom I con-versed swinced a desire to make any reasonable conession, if it would result in harmony to the Opposi-

This morning the trains were crowded with delegates and citizens, and the streets of Trenton presented at sputual aspect of life and activity.

The Opposition Convention was called by a vote of the Opposition members of the last Legislature, in which all the elements united. It authorized the appointment of delegates from each township in the pointment of delegates from each township in the ratio of population, amounting in the aggregate to 568 members, and not a township, so far as I could learn, was without a representative. Of the delegates, the Americans probably had a plurality, though the Republicans had a large representation, and in every county Anti-Lecompton Democrats were members of the delegation.

At 12 o'clock the Convention met in Temperance
Hall, and was temporarily organized by calling the
Mon. Elston Marsh of Union to the chair. Robert
C. Briville was elected temporary Secretary.
The following Committees were then, on motion, ap-

Edsali; Vth District, Abrahom O. Zabriskie.

A difference of opinion existing as to the hour of
adjournment, it was finally left to the Chairman, who

determined at 2; o'clock.

Barker Grummerr offered the following resolution, which was adopted:

Reselved. In order to secure the election of our nominee for Governor, by a thorough organization throughout the State, that as Executive Committee be appointed by the permanent President and Vice Presidents, to consist of eight persons, three from the City of Treaton, and one from each Congressional District, and that each county delegation be requested to appoint a suitable person of their county to be a corresponding member of said committee, and that the names of such corresponding members be handed to and sunconced by the President.

The Convention then adjourned.

AFTENNOON SESSION.

At 2; o'clock the temporary President called the Convention to order. The hall was densely crowded, all the delegates being present, with, perhaps, a few exceptions. The attendance of citizens was very large—all the space for sitting or standing being occupied.

The Chairman of the Committee on Permanent Organization, the Hon. Thos. H. Dubley, then submitted the report of the Committee, as follows:

President—The Hon. Dubley S. Gargony.

Five President—Wm. Moore, Atlantic; P. Powles, Bergen; Samuel Scuil, Camden; F. F. Sharp, Comberland; Jeptha Abebt, Glomester; J. E. Forman, Husterdon; Chaz Parker, Mercer; T. Shafer, Middiesex; C. The nominations were received with loud cheers, which were increased as the President reached the

platform.

Mr. Gregory said that the Convention had met for important business, and he would not detain the delegates by a long speech. He congratulated them upon the favorable anspices under which they met. It was a Convention of power and influence. They met through the demand of the people, and in opposition to the present Administration of the Federal Government. Some fifteen years since, they would remember that the Governor was appointed by the Legislature, and, being ex officio the Chancellor, it was necessary that he should be a counselor at law. But the people thought it necessary to make a change, and to select their Governors from different avenues of society. The first was a farmer, recently deceased. The next was a Judge on the Bench, and was now, as he had heard, an excellent Anti-Lecompton man. [Loud applause.] Both had done excellently. The third was a gentleman who had been roving generally, and brought up in California, but returned to discover the geological position of the country. But he thought that Gov. Price had done good service. He was the projector of the Normal School system, which he thought they would find of great benefit to the State. The next was the present incumbent, who had been selected from the medical profession, and his official course was alike honorable to himself and beneficial to the interests of the State. It was not for him to speak in Governor Newel's praise, but he believed that his heart was with this Convention, and that he would rejoice at the result of its deliberations. In conclusion, the President returned his thanks for the honor conferred upon him, and he expressed his confidence that its deliberation would tend to the satisfaction of the Opposition.

Charles P. Stration, Chairman of the Committee Mr. GREGORY said that the Convention had met for

on Credentials, then submitted the report of the Committee. It stated the fact that in Bordentown two sets of delegates had been elected to represent that town of delegates had been elected to represent that lown—
one by a Republican meeting, from which other members of the Opposition had been excluded, and the
other by an Opposition meeting. The Committee recommanded the acceptance of the delegates nominated
by the Opposition Convention.

The Committee on Rules than reported a set of rules
for the guidance of the Convention; after which
A call was made for nominations. The Counties
were named in their order, and candidates for nomination were named, as follows:

Were named in their order, and candidates for nomination were named, as follows:
Burlington, Joseph W. Allen; Camden, Joseph W. Porter and Andrew E. Hay: Essex: Wm. K. McDoudd; Mercer, Charles S. Giden; Morris, Epiratin March, Union, Edward Y. Acgers; Hudson, Dudbey S. Gregory.

J. W. Hischman stated that he had been authorized by Hon. Richard S. Field to say that he had consented to be a candidate upon one contingent. If he could be the instrument of uniting all the elements of the Opposition, he would withingly sacrifice the comforts of private life, and the emoluments of his business, to serve as Governor. But he had been informed recently that there was some objection, in a small portion of the branches of the Opposition, to his name; and as his labors had been directed to secure the consolidation of the Opposition, he was not willing, under the circumstances, to have his name brought before the Convention.

Sonator Hutchinson of Burlington said he was au-florized to withdraw the name of Col. Jos. W. Allen. John Shith of Essex moved the appointment of a Committee of Conference. The motion was laid on

The Convention then proceeded to take the vote, by ice and townships, viva voce, with the following

A MENNER suggested that the vote exceeded the total vote is appeared in the list of debates, 508.

It was announced to be a mistake.

The Convention then proceeded to take the second vote in 'the midst of intense excitement. The name of Dudley S. Gregory was withdrawn at his own request, be stating that he was not a candidate for nomination, and the vote was announced as follows:

It was moved that Charles S. Olden be nominated by icclamatic. (Applause, and cries of "No!" "no!")

An adjournment was moved, but was cried down.

The Convention then proceeded to take the third vote

The announcement of the vote was received with lond cheers.

Mr. John Whitzherd said that he was the friend and supporter of Mr. McDonald, but he deferred to the wish of the Convention, and moved the nomination of Mr. Olden be made unanimous. (Loud cheers.)
It was moved that a Committee of one from each Congressional District be appointed to telegraph to Mr. Olden the result of the Convention's labors, and request him to come at once to Trenton.

Mr. Hegena announced that it would be impossible for Mr. Olden to comply with the request.

As Whitehead, esq., of Newark, congratulated the Convention upon their choice. He moved the appointment of a Committee of five to announce to Mr. Olden his nomination.

The Hon. Robert F. Kenney asked that the motion be not now hissed. The aim of this Convention was to recure the support of the whole Opposition for an Opposition candidate. This Convention was not the whole Opposition. They should be cautious not to take any steps which they would have to retrace.

After a brief debate Mr. Whitehead's motion prevailed, and Messrs, Whitehead of the 'Fifth, Spear of the Fourth, Brawn of the Third, Hutchiason of the Second, and Dudley of the First Districts, were appointed on the Committee.

Mr. Kenneyly then renewed his motion for a Com-

pointed on the Committee.

Mr. Kennery then renewed his motion for a Committee in Conference with the American Convention to announce the nomination of Mr. Olden. It was carried unanimously, with an amendment asking the concurrence of that Convention in the nomination. The President appointed the following gentlemen such Committee.

P. Jeneks, Dr. McGowan, Alfred Simpkins, Edward A. Reeder,
James W. Woodruff, Johnson Barber, George Early, and Robert
F. Kennedy.

A member announced that the appointment was
useless, as he had just heard that the American Convention had nominated Peter J. Clark.

For a moment this statement operated as a damper
upon the Convention, but it was resumed by the announcement of another member that he had received
information that the Convention had taken a recess for
ten minutes, and had not made any nomination.

A call was then made for the report of the Committee on Resolutions.

An effort was made to keep back the report of that
Committee until the Conference Committee should report.

Mr. RUTHERFORD, Chairman of that Committee, reported the following resolutions:

Resolved, That we are in favor of the public domain in limited quantities, free from compulsory alieusation of the sectual settlers, we from compulsory alieusation for the settle settle quantities of it from passing into the hands of land monopolists, is a desideration in national legislation intimately connected with the welfare of the country. | Applicates|. |

Resolved, That we regard all suggestions and propositions of every kind, by whomsoever made, for the revival of the African slave-trade, as insuiting to the moral sentiment of the enlightened portion of mankind, and that any action on the part of the dovernment or the people conniving at or legalizing that traffic would justly subject the Government and citizens of the United States to the exceration of all civilized and Christian people; and that the location of the National Administration in bringing the slave-trades to justice, and its course is sending such as a fave been arrested to trail in places where acquitted was certain, subject it fairly to the charge of conniving at the practical reopeling of that traffic. [Cheers.]

Resolved, That the Excellency Gov. Newell deserves the thanks of the people of N. J., for the ability, prodonce, and integrity with which, notwithstanding the embarressing circumstances arrounding him, he has discha creature of cancuses and conventions. But he supposed the question might be asked why he the speaker) was here. In 1850, the Democratic party had put forth a platform well calculated to seduce a man desirous to advance the interests of his State. At that time the freehold qualification and a backward system of education existed, and the Democratic party came out with a platform to reform this. It professed itself in favor of general instead of special laws, and it came into power on the principle of equal legislation. He had stayed with that party and had faithfully tried to carry out those punciples, but he now declared that that party had been recreant to all those pledges, and lately it had become a mere tool in the hands of Pro-Slavery Demiration, and as such he had left it. He believed that in a government, organized on the principles of ours, some presumptions might be taken in favor of liberty. [Cheers.] And finding that in the Democratic party all their presumptions and all their interests were in favor of the domination of Sisvery, he had left it, and these were the first views he had ever heard on this subject and he had never changed them. [Applause.] Referring to Gen. Wright, the speaker sad that he could not be the representative of the State of New Jersey. What class would he represent? Would it be shoulder-hitters and loafers of a low order, or would it be men who had homes, firesides, and wives, and daughters to protect? He did not mean to be personal upon Mr. Wright, but he would say that he could not see where Gen. Wright could find a community of which he could be the representative, without branding them with infamy. [Applause.]

Gov. Newell rose in the body of the house, and stated that he had been informed upon reliable authority that the American Convention had nominated Mr. Olden. [Loud cheers.] Mr. Olden, for eminent services and ability, stood among the first men in the State, and he gave his cordial indorsement of the nomination for his successor.

Three cheers for Gov. Newell were called for and responsible to.

[Cheers.] And he desired to say that a great deal of credit was due to the men of the lst District, who voted for Mr. Olden, and repudiated Mr. Clark from first to last. [Applause.]

After speeches the Convention adjourned sine die,
with cheers for Olden.

A long time was passed in violent debate, which turned for the most part upon the possible concurrence with the Opposition Convention. The spirit of the Convention seemed to be in favor of such action, but Convention seemed to be in favor of such action, but the "Shanghae" representation made up in violence what it lacked in numbers. The first ballot was being taken when the Committee of Conference arrived from the Opposition Convention. The "Shanghaes" attempt-ed to his the Committee out, but they failed. The Committee having retired, the vote was con-cluded. It resulted in 93 votes being cast for Charles S. Olden, and 35 for Peter J. Clarke, the Shanghae candidate.

## BOARD OF EDUCATION.

The first meeting of the Board of Education, after the vacation, was held last evening. During the recess most of the members have been greatly renovated. Mr. Boese, the Clerk of the Board, has extended this repovation to the hall of the Board, which he has remodelled with great advantage to all. The seating has been much improved, the lobby fenced off with iron, and the reporters have a more commodious table. Mr. Bosed deserves the thanks of the members, the execrations of the lobby, and the praise of the Public. When the President, Mr. WARREN, had called the

The Seventeenth Ward asked for \$4,570 for furnishing No. 19. Same reference.

A communication from the City Superintendent, substantially a circular to the Trustees of the Wards, in accordance with a rule requiring him to confer with them from time to time, was submitted, with a request that a sufficient number of copies be printed to supply the Trustees of the several Wards. This circular embodies the results of many years' familiarity with the system. Mr. Randail advises a more careful discrimination in the appointment of teachers: indeed, that no teacher be confirmed until they have practically shown their executive efficiency in teaching. He recommends that the infant classes be placed under the best teachers of the primary schools; that no exhibition of passion be tolerated on the part of the teachers, and that corporal purishment be used more sparingly, and never in the presence of the school or the class. He advises that receptions and exhibitions be rendered much fewer, and never allowed to interfere with the regular course of instruction. He calls to the notice of the Trustees, that boys and girls of Grammar Schools are taught in separate departments in few places except in this city, and he thinks that the sexes can be educated in concert to greater advantage than separately; this view he supports by multifarious and excellent arguments. He recommends greater attention to ventilation, and a general provision of theremometers. He advises frequent visits to the schools, and thorough investigation on the part of the Trustees.

Air. Adams, in consequence of his disagreement with certain portions of the document, moved that it be laid on the table.

Mr. Tucker opposed the motion and it was lost 23 to 11.

Mr. Tucker then moved that 500 copies be printed.

Mr. TUCKER then moved that 500 copies be printed.
Mr. TUCKER then moved that 500 copies be printed.
Mr. WATERBURY said that that was an extraordinary number, and if printed, might give ground for the belief that the Board endorsed the document.
Mr. GREES said that the document contained nothing new, nothing that had not been discussed in works on school discipline; it must all be familiar to every one. Besides it was exceedingly diffuse.
Mr. DAYESFORT would be obliged to vote against the printing because he was opposed to some of the positions assumed in it. He therefore moved that so much of it as related to teachers be referred to the Committee on Teachers, and that that which referred to periodical receptions and exhibitions, and the union of the sexes in the higher classes, be referred to the Committee on Course of Study.

Dr. RASSEY thought that a refusal to print this circular would be a very poor compliment to their own office. The City Superintendent meant that circular to take the place of personal consultation.

Mr. GREES was willing to admit that the Board had

office. The City Superintendent meant that circular to take the place of personal consultation.

Mr. Green was willing to admit that the Board had the highest confidence in the City Superintendent, but he wished to say that the paper which had been read was not a simple opinion; it was a diffuse discussion of the subjects on which it treated.

Dr. Kanner thought that if the resolution to refer was adopted, the Board might as well appoint committees to revise every communication which the City Superintendent or the President might feel called upon to submit to the Board.

Mr. Green thought that that suggestion was one of which he could not reasonably disapprove.

\$200. Referred to Committee on Finance.

He objected to paying six bills for lightning rods amounting to \$390 for buildings in the Twelfth Ward; no such thing ever having been bought before. Upon this a desultory discussion arose as to the expediency of using lightning rods generally.

The bills were finally ordered paid.

Five bills from the estate of H. Sperry & Co., for clocks, were referred to the Finance Committee. In these clocks by an ingenious arrangement a single clock movement is connected with faces in various parts of the building, so securing uniform time. This uniformity is of great value in the movement of classes from room to room. One of these clocks, with six from room to room. One of these clocks, with six faces, facilitates the multiform labors in The TRIBUNE

Office.

Mr. WATERBURY offered a resolution providing pianes for all the primary schools and department averaging 500 pupils. After more than two hours' de averaging 500 pupils. After more than two hours' de-bate, and many modifications, the appropriation of \$250 for a piano for the Twentieth Ward, (Mr. Waterbury s), settled the matter.
At 10 p. m. the Board adjourned.

MARINE AFFAIRS.

THE GREAT PASTERS.

The Portland people are making great preparations to receive the Great Eastern. The Advertiser of that

city says:
"The wharves built by the city and the Grand Trunk city says:

"The wharves built by the city and the Grand Trunk for her accommodation are located near Fish Point, the western terminus of the peninsula upon which Portland is situated, and they were so located, that being the nearest point to the deep water of our outer harbor, where there is from six to eight fathoms at low water, and nine feet more at high water. At the suggestion of the City Government, the Grand Trunk have agreed to build a substantial bridge, twenty feet wide, upon the bank on Murjoy Hill, opposite their lower wharf, to the wharf, by wmch visitors can pass to the eteamer, twenty feet above the track of the railroad. Access to this bridge will be from the Eastern Promenade, the city proposing to make two streets from the promenade to the bridge, so that carriages can pass down one of these streets to the extrance of the bridge and up the other. The ample width of the promenade and the vacant land adjoining will afford good accommodation for 8,000 to 10,000 spectators, who can here look down upon the steamer's decks at high water, embracing at the same time a panorame view of our harbor and a part of the 200 isles of Casco Bay. An admission fee to the steamer will be charged by her owners, and the bridge will be so constructed as to allow one flight of stairs from it to be used by those entering her, and another by those leaving." other by those leaving."

The Great Eastern is to sail for Portland

on the 15th inst. It is very probable that she would make a trip from Portland to New-York, if proper measures were taken to convince her owners that they could do so with safety and profit. She probably could not come by way of Sandy Hook, but she might reach here through Long Island Sound to Morris Island, in Westchester County, without the elightest difficulty. Morris Island is connected with the City of New-York down to the City Hall, by the Harlem Railway-distance about ten miles, which can be accomplished in twenty minutes. From Montank Point, on the eastern end of Long Island, or from Block Island channel, there is not, at any one point, less than six fathoms-or thirty-six feet-of water. At Morris's dock, there is at low tide seventy feet. An ample harbor is then found by the Brothers' Is'ards and Hussar Point. Should her owners bring her to this port, they might safely calculate apon netting a hundred thousand dollars in the course of a few weeks, by throwing her open to visitors at 25

DEATH OF A DIVER.

Thomas Campbell, an expert diver, who had for some time past been employed by the contractor, Orin Wardell, trying to raise the machinery of the steamer Monarch, lying in the Lake, and had been in the habit of diving down several times a day to the boiler, yesterday morning, between ten and eleven o'clock, dived down with the necessary precantions and under ordinary circumstances, but he had not been long underneath when he let go the rope. Those above noticed this circumstance, but in a moment afterward he was seen in the water coming up to the surface, paddling, as is usual, with his hands, and all was right. When within a foot or two of the surface, however, he suddenly ceased moving, and commenced to sink. Mr. Wardell instantly threw him a pole; and finding that of no use, he dived after Campbell, trying to save him. He succeeded in bringing deceased up, and the body having been taken on beard the boat, every effort was made to restore animation, but without success. Deceased had not been under water more than two minutes, and had been under water more than two minutes, and had been under water more than two minutes, and had been known by his courades to remain longer under on previous occasions. GALE ON LAKE SUPERIOR—SHIPWRECKS.

The propeller Manhattan, Capt. Calvin Ripley, was bound up on Thursday for Marquette and Portage Lake, and a heavy north-west wind blowing, got out of fuel when off Grand Marais Harbor, between the Picture Rocks and Grand Saublo. The captain, finding that there was only one thing for him to do, made for the harbor, and in going in struck, about 11 a. m., on the bar in the channel. His vessel came to a standstill, and the crew and passengers were landed.

On Friday the propeller Iron City, Capt. Turner, took the passengers to Marquette. The crew remained, however, with the hope that the vessel might be got off, but on Saturday the seas were making a clean sweep over the unfortunate craft. There can be little doubt that by this time the Manhattan is a complete wreck.

clean sweep over the unfortunate craft. There can be little doubt that by this time the Manhattan is a complete wreck.

The scheener Ethan Allen was driven on the rocks at the east end of Copper Harber during the same gale, and was scuttled to save her from pounding. The captain of the scheener came on the Illinois to Sault St. Marie, where he procured a tug, with which he went to Macinac to get a steam pump, to endeavor to raise his vessel. Should the weather be favorable, the Allen will probably be raised, though, from a number who have seen her, we learn that the chances of saving her are somewhat dubions.—[Detroit Adv., 6th.

MKAY, THE SHIP-BUILDER.

Donald M Kay, the eminent ship-builder, takes passage in the seamer America, which sails this day for Liverpool. We understand that he carries with him plans and specifications of several vessels of war for the use of some of the European naval powers, and will probably be absent over a year. The French naval authorities entertained a very high opinion of the lines of the ship Great Republic, and thought them well adapted for a vessel of war of the first class. It is probable that Mr. M Kay may have an opportunity of introducing some of his fast-sailing models in the French Navy.

A BOGUS CHARITY.

To the Editor of The N. Y. Tribune

Mr. Green thought that that suggestion was one of which he could not reasonably disapprove.

The reference moved by Mr. Duvenport was then carried—25 to 10.

The President objected to paying eight bills amounting to \$495 for repairing No. 42; the amount being over \$260. Referred to Committee on Finance.

He objected to paying six bills for lightning rods amounting to \$390 for buildings in the Twelfth Ward; no such thing ever having been bought before. Upon work done at the Home.

Calling at Barrow street last Winter, I inquired of Mrs. Lincolin who the individuals were whose manes were recorded here as constituting the direction of the society or association. Miss Hyde, she said, was a member of the family, and was married only the evening before to a gentleman doing business in Boston. Miss Devenall was a member of the family, and was married the evening previous to a hotel-keeper of St. Louis; and of the whole fifteen names on the report as managers, all but three were, she told me, himates of the establishment. One of these were, she told me, himates of the establishment. One of these were, she told me, himates of the establishment. One of these were, she told me, himates of the establishment. Mrs. Lincoln told me she had the consent of a lady connected with the Fernale Benevolett Society to refer to her, who, when I called on her, said she had forbidden her to refer presents to her, and that are regarded her as woolly tocapable of managing any such effort as the one she was engaged in.

Mrs. Lincoln was once in the hands of the Grand Jury and was chily saved from indictment by the interposition of this lady. Mrs. Lincoln indirunde me that she sent achieves a she as as as a same and the same presentation for two hours, they entered stores and markets of all descriptions, porter house, oyster cellars offices of livery stables, and singular pl

Some of the female emissaries of this concern were arrested last week, in Philadelphia, for false pretenses, and Mr. Carpenter, Deputy Superintendent of Police, has made investigations which satisfy him that the people connected with it are arrant impostors.

EARTHQUAKE AT FAYAL.—A correspondent of The Saiem Gazette gives the following account of earthquake shocks in Fayal: "On the 25th of May, about 11 oclock p. m., we had three shocks of an earthquake. The first was sufficient to shake the house slightly; about three minutes after another shock jarred everything in the house, and, in a moment, the third shock the house so that we thought it would go over. They lasted a very short time—sufficiently logg, however, to frighten us half out of our senses. Some of the people got out of their beds and went into the gardens in their night-clothes, and put up tents to sleep in, which they occupied several nights, thinking that if they got out of the way of the houses they were safe. Our houses are all built of store, and are very strong; if they were contracted as they are in the United States, they would have all been destroyed. Since this earthquaks we have had very cool weather—about as cool as we (in Fayal) have it in January." have it in January.

## BROOKLYN ITEMS.

ATTEMPTED OUTRAGE ON A CHILD .- On Tuesday night a man named Peter V. Yerrance, proprietor of the Oyster Bay, No. 553 Broadway, New-York, was arrested by efficers Osborn and Morris of the Seventh Precinct, for attempting to commit a brutal outrage upon the person of a little girl, named Lupton, 13 years of age. The parents of the child reside in Jay street, Greenpoint, and Yerrance by some means obtained an introduction to them. On Tuesday afternoon he called at the house, and took the three children in his carriage to ride to Calvary Cemetery. A short distence out, he took the eldest girl, Hester, upon his lap, and kiesed her. He then wanted to put the other children out of the carriage, but Hester would not permit it. He afterward attempted to take liberties with her, when she jumped out of the carringe and ran home. Her brother, learning of the occurrence, caused Yerrance to be arrested. Alderman Perry took the complaint, and held him to bail to answer the charge. Yesterday he appeared before Justice Fox, and the examination was set down for Wednesday next.

FATAL ACCIDENT .- Mrs. Clancy, who was injured by falling down stairs at her residence in Cook street, near Morrell, Brooklyn, E. D., on Monday night, died on the following night from her injuries. An inquest was held, and a verdict of "Accidental death" ren-

dered.

THE RIOT ON BOARD THE SHIP MAYFLOWER.—The crew of the ship Mayflower, who stand charged with riot and assult upon the efficers on Monday last, were arraigned before Justice Cornwell westerday for examination. The names of the defendants are: Heary Palmer, Heury Releaver, Otto Tepper, defendants are: Heary Palmer, Heury Releaver, Otto Tepper, Charles Webster, Heury Gerdes, William Kinssmann, Harman Charles Webster, Heury Gerdes, William Kinssmann, Harman Fricke, Henry Schorf, and Frederick Kiuber. Another of the crew, who was dangerously stabbed by one of the mates, still lies at the City Hospital in a critical condition.

Several witnesses were examined on the part of the plaintiffs, the officers of the sloop, from which it appears that the defendants were engaged to go to City Point, and thence to Bordeaux. They came on board about 10 o'clock on Monday with their clothes, which they put in the forecastle. In about twenty minutes they took their bagages to go on abore, having become diseastisfied with some of the arrangements. They put it on a cart, and several returned and commenced abusing the second mate, Mr. Parker, who was then in the gangway at work. One of them kicked Parker, when the captain and other officers came to his aid, and after a short fight the sailors were driven upon the ship Parana, lying slousside, next to the wharf Kerwin, the third mate, followed them to the Parana, and shortly after returned. About that time Neibhur was hursed, but none of the witnesses appear to have seen how it occurred. The sailors had belaying pains, captain bars, and junk bottles, with which they struck the officers. The latter siao used weapons. The following were identified by the captain, Eben Hoyt: Henry Reisener, who threw a belaying pin: Otto Tepper, as the own ho kicked the mate, and Frederick Kluber, who struck the captain with a handspike. The captain, in his testimony, stated that he did not see Kirwin have a waspon.

The recommander of the statement of the affair heretofore published was elidited

Sudden Death.—Coroner Horton held an inquest yesterday upon the body of George Parker, who was found dead in his bod, at No. 132 Myrtle avenue, the preceding morning. A post-mottem examination revealed the fact that he died of congestion of the brain. The deceased leaves a wife in England.

THE POLICE COURT.—The following is a summary of cases finally disposed of in Justice Conwell's Court, during August: Intoxication 374, varance 114, violating city ordinances 144, assault and battery 168, fighting 14, petit larceny 35, burglary 11, disorderly houses is, threat to take he 10, transt children 7, playing cards on Sunday 5, malicious injury 11, arson 3, abandonment 5, seiling liquor on Sunday 1, assault with deadly weapon 2, assault with firearms 1, grand larceny 15, rape 2, bigsiny 2, keeping policy office 2, highway robbery 2, conspiracy 3, abasilve larguage 1, receiving stolen goods 1. Total, 396. Over fifty cases have been entertained during the same month which have not yet been disposed of.

Assault with a Slund-Shot.—About 12 o'clock on Tue day night a man named Charles Phillips was attacked by two men in Fulton steet, near Nassan, and knocked down with a slung-shot. He was picked up in a senseless condition. Who the assailants were, or what motive they had, is not known.

CAPTURE OF A BURGLAR.—On Tresday night Offi-cer Bell, of the Sixth Precipet, arrested a man named Alexander Burrill, on a charge of burglary. It appears that some two weeks since Entrill, who lives in the house with Mr. Thomas Baker, in Lorimer streetnear Withers, E. D., went into Mr. Baker's apart-ments one afternoor, and attempted to open two chesta. He succeeded in opening one of them, and stole therefrom two dol-lars. He then left home, and has since absented himself. A brother of Burrill, about nice years of age, told of his brother going into the room and breaking open the chest, and this led to his arrest. He was committed for examination.

DENCE.-The Committee of Plans for the Monument to the Signers of the Declaration of Independence to be erected in Independence Square, Philadelphia, met at the Metropolitan Hotel yesterday afternoon, prospectus, a copy of which is to be addressed to all architects and artists throughout the United States, setting forth that all plans sent in for the approhation of the Committee must be drawn upon sheets of paper two feet square, on the scale of 4 feet to the inch. providing a base 60 feet in diameter, having 13 sides, and in each side a niche or entablature containing some device representative of each of the thirteen States, a shaft or column over all. The plans are to be sent in to A. G. Waterman, esq., Philadelphia, on or before the 1st of January, 1860. The Committee have resolved to award for the best plan, which will be adopted, \$300; 2d best, \$200. All plans sent in are to be the property of the Trustees of the Monu-

UP-Town MARKET MOVEMENT .- A meeting was held at Jackson Hall, corner of Greenwich avenue and Horatio street, last evening, to take steps for establishing a central wholesale country produce market, on the Fort Gansevoort property in the Ninth Ward, between Twelfth street, West street, Gansevoort street, and the North River. Speeches were made and petitions signed, with a view to the establishment of such a market. The chairman of the meeting, David W. Wheeler, esq., and others, chiefly property owners, were appointed a committee to wait upon the city authorities, prepare resolutions and call a mass meeting within a fortnight.

MORE COUNTERFEITS .- Last night Officer Chatwell of the Ninth Ward, arrested a man named Sam'l Shaw for attempting to pass a counterfeit \$20 bill on the Farmers' Bank of Wantage of Deckertown, N. J., at the store of Willey & Bowen, No. 515 Hudson. street. The accused ran out of the store, and in his flight destroyed the bill. He was pursued and overtaken and accommodated with a cell in the Station-House for the remainder of the night. Suspicion of Anson .- At the instigation of Fire

Marshal Baker, Officer Robinson, of the Twentisth Ward, last night arrested James Bailey on a warrant issued by Alderman Smith, the accused being charged with attempting to fire a frame building rear of No. 264 West Twenty-seventh street.
